DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species I, Figures 1-7 read on claims 1-9 in the reply filed on 9/23/2005 is acknowledged.
2. Applicant's cancellation of claims 10-63 without prejudice or disclaimer in the reply filed on 9/23/2005 is acknowledged.
3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-6, drawn to a camera comprises a plurality of lens units, a plurality of diaphragm members for controlling quantity of light beam that forms an image of a subject, classified in class 348, subclass 363.
 - II. Claims 7-9, drawn to a camera comprises a lens unit, a focus adjusting mechanism which performs a focus adjustment operation for a subject image., classified in class 348, subclass 345.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention group I has separate utility such as in a camera,

Art Unit: 2612

which does not include a focus adjusting mechanism which performs a focus adjustment operation for the subject image as claimed in group II. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
